8. Miscellaneous.

(a) This Agreement constitutes the sole and entire agreement of the parties with respect to the subject matter of this Agreement and supersedes all prior and contemporaneous understandings, agreements, and representations and warranties, both written and oral, with respect to such subject matter. Nothing express or implied in this Agreement is intended to confer, nor will anything herein confer, upon any person other than Genomenon and Licensee and their respective successors and permitted assigns any right, remedies, obligations or liabilities whatsoever. The United Nations Convention on Contracts for the Sale of Goods will not apply to this Agreement,

(b) No amendment to or modification of this Agreement is effective unless it is in writing and signed by an authorized representative of each party. No waiver by any party of any of the provisions hereof will be effective unless explicitly set forth in writing and signed by the party so waiving. Except as otherwise set forth in this Agreement, (i) no failure to exercise, or delay in exercising, any rights, remedy, power or privilege arising from this Agreement will operate or be construed as a waiver thereof and (ii) no single or partial exercise of any right, remedy, power, or privilege hereunder will

preclude any other or further exercise thereof or the exercise of any other right, remedy, power, or privilege.

(c) If any provision of this Agreement is invalid, illegal, or unenforceable in any jurisdiction, such invalidity, illegality, or unenforceability will not affect any other term or provision of this Agreement or invalidate or render unenforceable such term or provision in any other jurisdiction. Upon such determination that any term or other provision is invalid, illegal, or unenforceable, the parties hereto shall negotiate in good faith to modify this Agreement so as to effect the original intent of the parties as closely as possible in a mutually acceptable manner in order that the transactions contemplated hereby be consummated as originally contemplated to the greatest extent possible.

(d) This Agreement is governed by and construed in accordance with the internal laws of the State of Michigan without giving effect to any choice or conflict of law provision or rule that would require or permit the application of the laws of any jurisdiction other than those of the State of Michigan. Any legal suit, action, or proceeding arising out of or related to this Agreement or the licenses granted hereunder will be instituted exclusively in the federal courts of the United States or the courts of the State of Michigan in each case located in the city of Ann Arbor and County of Washtenaw, and each party irrevocably submits to the exclusive jurisdiction of such courts in any such suit, action, or proceeding.

(e) Licensee may not assign or transfer any of its rights or delegate any of its obligations hereunder, in each case whether voluntarily, involuntarily, by operation of law or otherwise, without the prior written consent of Genomenon. Any purported assignment, transfer, or delegation in violation of this Section is null and void. No assignment, transfer, or delegation will relieve the assigning or delegating party of any of its obligations hereunder. This Agreement is binding upon and inures to the benefit of the parties hereto and their respective permitted successors and assigns.

(f) Licensee acknowledges and agrees that a breach or threatened breach by Licensee of its obligations in relation to the license granted hereunder would cause Genomenon irreparable harm for which monetary damages would not be an adequate remedy and agrees that, in the event of such breach or threatened breach, Genomenon will be entitled to equitable relief, including a restraining order, an injunction, specific performance and any other relief that may be available from any court, without any requirement to post a bond or other security or to prove actual damages or that monetary damages are not an adequate remedy. Such remedies are not exclusive and are in addition to all other remedies that may be available at law, in equity or otherwise.
